Certificate of Internship / Proof of Contribution

This istocertify that **Pranav Verma** has successfully completed an internship as a code maintainer in the project **CortexFlow - CortexBrain**, from **12 June 2025** to **27 June 2025**.

During this period, he contributed actively to the development of the project by performing the following tasks:

• Contributing to issue #94: Replace "install" and "delete" scripts with a dedicated CortexFlow CLI command
• Contributing to issue #77: Create Cortexflow CLI v 0.1

Tools & Technologies used:

- Languages: Rust
- Technologies: Docker, Kubernetes, GitHub

Their contribution was marked by quality and a proactive approach and was instrumental in achieving the project goals. He also showed a strong predisposition to problem solving, good Rust programming skills, and great analytical skills.
